Mr.Saren Sim

[saren.sim@axivit.com](mailto:saren.sim@axivit.com)

Date: 11st July 2025

Dear Mr.Saren,

I am very interested in applying for the position of **Web Intern** at **Sourceamax Asia Co., LTD**. I have abilities that match your requirements for this position, and I would love this chance to earn professional experience. I strongly believe that my qualifications and abilities would make me an ideal candidate for this position.

As an upcoming graduate with an Associate degree in web programming from **Passerelles Numériques Cambodia**, I have gained a lot of experience. During my studies at PNC, I have learned such as HTML, CSS, SASS, Bootstrap, Algorithm, PHP, Database, JavaScript, Typescript, Node JS, Laravel, VueJS, and MySQL. Moreover, I have experience working with API, databases, and some tools such as GitHub, Git, Postman, Netlify / Vercel, Clockify, Figma, and Jira. I could improve a lot on my skills, and I could use my soft skills such as communication, leadership, problem-solving, critical thinking, time management, teamwork, and responsibility. I have strengthened my technical and teamwork skills through real-world projects like a Library Website, Web Scraping Tool, Music Player App, and a POS System. These experiences improved my communication, collaboration, and time management, giving me the confidence to contribute effectively in team settings and deliver quality results.

I am genuinely interested in joining **Sourceamax Asia** because I admire organizations that value innovation, collaboration, and continuous learning. I believe your team offers the kind of supportive and forward-thinking environment where I can contribute meaningfully and grow as a developer. Being part of your company would be a great opportunity to learn from experienced professionals while applying my skills to real-world projects.

Thank you for considering my application. I have attached my resume for your review and would appreciate the opportunity to discuss how I can contribute to your development team.

Sincerely,

Mengseu Sork

# MENGSEU SORK

WEB DEVELOPER

## CONTACT

- ☎ +855 86 788 826
- ✉ mengseu.sork@student.passerellesnumeriques.org
- 📍 Phum Tropeang Chhuk (Borey Sorla) Sangtak, Street 371, Phnom Penh
